Mpumalanga Overview

The province has contributed 7% to South Africa’s GDP, with manufacturing, mining, community services and agriculture sectors driving a large part of the province’s economic activity.

Economic Overview

- GDP (2014): ZAR 187.4 billion contributing 7% to South Africa’s GDP
- GDP Growth: 1.7% (2013)
- Key Cities: Nelspruit

Demographics

- The population of Mpumalanga, at 4.1 MM in 2011, representing one of the lowest densities in South Africa
- With 76,500 km², Mpumalanga represents 6.5% of the South African land area
- Demographic composition of the province is predominantly African (90%) and white (10%). The dominant languages are Swati (27.7% of the population) and Zulu (24.1% of the population)

Key Industries and Composition of Provincial GDP

- Key Industries identified for provincial growth include manufacturing, mining and energy industry, community services, agriculture and forestry, tourism and cultural industries
- Share of contribution by sectors, to provincial GDP:
  - Manufacturing: 20.6%
  - Mining: 18.8%
  - Agriculture: 3%
  - Community services: 16%
  - Tourism and Hospitality: 7.3%

Notes: ¹This is effective contribution excluding the share of taxes less subsidies

SWOT Analysis for Mpumalanga (1/2)

**Strengths**

- Strategically positioned in the northeast of South Africa, Mpumalanga has two international borders, Mozambique and Swaziland, and touches 4 South African provinces.
- Mpumalanga is the home of the iconic Kruger National Park, which commands strong international recognition.
- The convention facility in Skukusa, with plans to upgrade accommodation, should help to attract international events.
- The province offers a range of meeting venues and accommodation in a variety of settings.
- With the Kruger and a well-organized safari industry, Mpumalanga is an incentive destination of choice.
- The province has Kruger Mpumalanga International Airport, and Skukuza Airport, with connections to major cities in ZA.
- The province boast attractive climactic conditions on a year-round basis.
- Nelspruit (Mb) continues to be a focal point of economic development in South Africa.
- Mpumalanga is home to a strong cultural heritage.
- The Highveld region boasts a strong heritage and tourism offering, which complements other provincial attractions.

**Weaknesses**

- Despite possessing a number of airports across the province, access to Mpumalanga remains limited and relatively expensive.
- Quality of roads off the main track is insufficient, and even dangerous in certain areas.
- Good public transportation is lacking in the province; municipal services are insufficient across the province.
- Limited accommodation options with few large hotels capable of handling big groups, even in key cities.
- There are no PCOs or DMCs in Mpumalanga, and the number of service providers with the experience and capability to manage large groups is limited.
- Insufficient network access in some areas: WiFi and GSM.
- The province lacks a purpose-built, state of the art convention centre that can accommodate large groups.
- Entertainment options are limited: good restaurants are hard to find, and there is no nightlife.

Source: Inputs from stakeholder discussions; GrainingEdge research and analysis.
There are several opportunities that need to be capitalized on, to drive forward the business events industry in the province. Doing so successfully can also mitigate some of the perceived threats, which include limited government support for the sector, and accessibility challenges.

### Opportunities

- Opportunity to create new impetus and momentum from both provincial authorities and private industry around new strategy for business events development
- A higher demand for business events to the province will encourage airlines to increase airlift
- Size of venues and variety of pre and post tour offerings is an opportunity to create smaller scale, but more personal and memorable experiences
- Leveraging a strong positioning around Kruger National Park could contribute to the province’s ability to attract more events
- Creation of a University in Mpumalanga will help source and secure more business events, particularly conventions
- Growing economic presence of Nelspruit in the national landscape will position it as base for meetings, incentives and post touring
- The Highveld region proposes a variety of touring opportunities, which can be promoted and developed

### Threats

- Competition from other provinces within South Africa, particularly Limpopo and Kwa-Zulu Natal that are positioning themselves as provinces with great outdoors experiences
- Wrong perceptions about “health crises” could hinder development of new clients
- Perception of delegate safety and security is an ongoing challenge
- Lack on understanding of the business events industry could hinder its development across the province
- The ongoing financial crisis could have a negative impact on the growth of the number of meetings and events
- Service providers’ lack of knowledge of client needs could discourage meeting and events planners from choosing Mpumalanga as a host destination

Source: Inputs from stakeholder discussions; GrainingEdge research and analysis
Lowveld is the economic, cultural, sporting, commercial and touristic center of the province. It offers easy access to Johannesburg, and boasts a good range of venues and hotels for meetings and events.

Internal Assessment: Kruger Lowveld
Strenghts & Weaknesses, Capacity and Event Activity

Strengths
- Nelspruit is the central hub of the province: economy, culture, shopping, sports
- High quality and diversity of hotels and venues: both large and small
- Wide variety of activities are within a one-hour radius
- Presence of provincial government in Nelspruit
- International airport with potential for development
- Attractive climate

Weaknesses
- Lack of integrated public transport system
- Nelspruit does not have a strong brand, positioning
- Air access is limited and expensive
- Communication among industry stakeholders is not strong
- Accommodation options are limited in size
- Limited number of suppliers for business events industry
- Limited nightlife available across the region

Current Activity in Business Events
- Key market: corporate and government meetings
- Regional and National Associations
- Incentives: activity largely focused on Kruger National Park

Hotel Rooms Available
- Total: 6,300
- 5★: 600
- 4★: 2,500
- 3★: 3,200

MESE Facilities Available
- Total MESE Facilities: 230
- Hotels with Conference Facilities: 120

Note: Only includes hotels and MESE venues/facilities graded by the TGCSA (where MESE facilities are graded either as part of a hotel, or separately)
Source:
Internal Assessment: Highveld

Strengths & Weaknesses, Capacity, and Event Activity

Highveld has good accessibility and allows for ease of travel to Johannesburg and Tshwane. It boasts a range of interesting and quality venues, and offer access to wilderness, sporting, heritage and cultural experiences. Good opportunities for pre- and post-touring for heritage buffs.

Capacity Assessment\(^1\)

**Strengths**
- With a strategic “crossroads” location in Mupumalanga, Highveld is a convenient destination for events
- Highveld boasts state of the art venues, and a well-organised local industry
- Attractive climate, particularly in summer
- Presence of unique historical and heritage attractions

**Weaknesses**
- Highveld is a significant distance from big commerce and economic centers
- Highveld lacks image and awareness in the marketplace
- Secondary road infrastructure is lacking
- Service standards vary significantly
- Municipal services are insufficient
- Problem of restaurants, nightlife and entertainment

**Current Activity in Business Events**
- Key Market: corporate meetings and incentives
- Associations: national and regional
- Religious group meetings

### Mpumalanga’s international convention market-readiness was evaluated based on the prerequisites that international congress organizers use when choosing destinations.

<table>
<thead>
<tr>
<th>Key consideration</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accessibility</td>
<td>From what cities is there non-stop and direct air service? How many flight connections will delegates from different parts of the world need? Are there frequent connections so that delegates avoid long waits in transit?</td>
</tr>
<tr>
<td>Hotel Stock</td>
<td>Are there enough rooms? How many properties would be required to support the necessary room block? What is the quality and value for money of the 4 and 5 star accommodations?</td>
</tr>
<tr>
<td>Facility Package</td>
<td>What are the group size capacities of the major convention venue? How conveniently located are the hotels in relation to the major convention venue?</td>
</tr>
<tr>
<td>Logistics</td>
<td>How fast and convenient are airport transfers? Will ground transportation be convenient? If delegates must move by motorcoach what kinds of distances are involved and how congested is traffic? How convenient is customs and freight transfer?</td>
</tr>
<tr>
<td>Members / Audience</td>
<td>Do we already have members there? Is it a place that offers potential for increasing the membership of the association? Are there large numbers of members and other people nearby who will likely attend?</td>
</tr>
<tr>
<td>Destination Appeal/ Image</td>
<td>Will the delegates know of the destination and consider it appealing? Will they like the destination? Are there sufficient options for evening entertainment and pre &amp; post touring? Are amenities close by the venue and hotels? Is it safe?</td>
</tr>
<tr>
<td>Cost</td>
<td>Is there good price/value and relatively low cost facilities and services for the association? How expensive will it be for the delegates in terms of hotel, meal and transportation costs?</td>
</tr>
<tr>
<td>Service</td>
<td>Are there competent local PCOs and DMCs? Are the hotels experienced at providing services to international groups? What are the customer service standards in general – restaurants, taxis, shops, attractions.</td>
</tr>
<tr>
<td>Local Support</td>
<td>Is government supportive? Is there a local host that will extend the invitation and support the planning for the convention? Are there potential corporate sponsors of the event?</td>
</tr>
<tr>
<td>DMO</td>
<td>Is there a capable and experienced convention bureau that we can work with? What services do they offer? Are they putting forward a good bid and will there be good industry coordination while planning our event?</td>
</tr>

## Destination Assessment
### Improving competitiveness

The main focus areas for Mpumalanga’s competitiveness enhancement in the near term would relate to increased focus on research, sales, local contacts and branding.

<table>
<thead>
<tr>
<th>Key consideration</th>
<th>Current Assessment</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accessibility</td>
<td></td>
<td>Access through two airports makes Mpumalanga reasonably accessible. However, perception of access remains a challenge. Air lift could be an issue for larger events.</td>
</tr>
<tr>
<td>Hotel Stock</td>
<td></td>
<td>Mpumalanga has adequate hotel stock to service most national or international conventions. Capacity is limited on the high end, however. Hotel capacity expansion plans should alleviate this strain.</td>
</tr>
<tr>
<td>Facility Package</td>
<td></td>
<td>Facility package remains an issue, except for smaller meetings. In all scenarios, larger meetings need to arrange transportation, which is seem as an additional cost and logistical concern by meeting organisers.</td>
</tr>
<tr>
<td>Logistics</td>
<td></td>
<td>Road network to and from Gauteng is good, however the secondary road infrastructure is often in need of work. Transfer times are within international norms.</td>
</tr>
<tr>
<td>Members / Audience</td>
<td></td>
<td>While Mpumalanga is “off the beaten track” in many respects, and lacks large universities, it should be able to leverage its economic strength and natural attractiveness to supply adequate audience for events.</td>
</tr>
<tr>
<td>Destination Appeal/ Image</td>
<td></td>
<td>This is an area where significant intervention could have a large impact. Mpumalanga is not a top-of-mind meetings destination nor does it enjoy the reputation it deserves. There has been excellent work done on branding and positioning, but it has not yet been communicated effectively to target markets, particularly for business events.</td>
</tr>
<tr>
<td>Cost</td>
<td></td>
<td>Overall good quality for value. Good positioning with respect to the rest of ZA.</td>
</tr>
<tr>
<td>Experience</td>
<td></td>
<td>Certification, training, client review and recognition programs could improve service levels. Service is typically strong, however service providers are inexperienced in working with international meeting planners.</td>
</tr>
<tr>
<td>Local Contacts</td>
<td></td>
<td>Mpumalanga suffers from lack of large, prestigious universities. However, there are a number of international organisations and enterprises, who could be a source of local contacts. A strong ambassador program and local contact outreach could improve this significantly.</td>
</tr>
<tr>
<td>DMO</td>
<td></td>
<td>MTPA has not had a dedicated convention bureau, even though there are staff members who understand business events.</td>
</tr>
<tr>
<td>Overall</td>
<td></td>
<td>Mpumalanga could improve its competitiveness and improve its business prospects by focusing on sales, marketing and services enhancement. Provincial brand management needs to be more aggressive.</td>
</tr>
</tbody>
</table>

Table of Contents

- Activation Strategy
  - Internal Assessment
  - Market Analysis
  - Alliances and Relationships
  - Strategic Direction

- Business Plan
The global meetings market is expected to continue on its path of muted but steady recovery in 2015, with continued focus on making a greater impact within current budgets.

**Global Trends in Meetings**

- **Recovery in Corporate Meetings Continues, growth will increase steadily**
  - According to 'Industry Forecast 2015' by Advito, clients continue to focus on keeping their overall meeting costs low by spending less on guest speakers, travelling shorter distances, reducing the number of nights away, and combining their meetings and transient travel.
  - The same report also stated that global demand for corporate meetings grew in 2013, albeit at a slightly slower pace than in 2012. This is expected to continue as a steady growth in 2014.

- **Marginal Change in Budgets and Lead Times**
  - At an individual meeting level, budgets were expected to marginally change across all regions.
  - Lead times for meetings are also expected to marginally decline in 2015, with a significant decline expected in the EMEA market.

- **Scale and Duration of Meetings Hold Steady**
  - The same survey also found that the scale of meetings, in terms of number of attendees is likely to hold steady in 2015 even as the average duration of meetings declines marginally.

**Consequences for Mpumalanga**

- Key trends in the industry, driven by efforts to reduce costs and to focus on objectives and ROI, should help Mpumalanga Province to position itself as a “convenient” alternative to meetings in JoBurg and Tshwane.
- The quality of facilities, and good price/value across the province, will enable venues to position themselves effectively on this market that is controlling budgets tightly.

Global Trends in Incentives

Companies are increasingly adopting cost-cutting measures, resulting in a decline in the per-person incentive expenditure, which is expected to result in more value-for-money offerings and a rise of emerging destinations. Mpumalanga needs to better package and position its products in this market.

- **No/Limited Growth in Incentive Expenditure**
  
  According to an annual survey, ‘2014 Incentive Trends Survey’, conducted by IRF/Corporate Meetings and Incentives (CMI), 48% participants said that their budget for the incentive travel programmes for the year 2015 will remain the same as 2014, with 31% saying budgets will increase.

- **Increasing Focus on Value for Money**
  
  The IRF/CMI 2014 survey reported that companies are adopting several measures to reduce per-person expenditure and fit more within their budgets. The key steps being taken by companies are – reducing onsite gifts, shorter trip lengths, offseason booking, shift to regional destinations.

- **Increasing Preference for Smaller Group Size**
  
  - Companies increasingly prefer smaller-sized groups to provide a more personalised experience to the attendees.
  - Also, incentive organisers now prefer smaller groups, as it is easier to manage them.

- **Increasing Demand for Unique Experience**
  
  Attendees of incentive programmes prefer to have an exotic experience, and want to experience unique culture during the travel — President, an Association of Events and Exhibitions, Oct 2014.

**Consequences for Mpumalanga**

- Mpumalanga possesses a rich array of incentive product, although there is a need to package it into marketable incentive packages.

- Trends towards more value for money offerings work in the favour of Mpumalanga’s destinations, which generally offer good price/value ratio.

- There is a real opportunity in Mpumalanga to propose unique, cultural experiences in addition to “in the wild” products that could attract leading incentive houses to the province.

Associations are paying increasing attention to the returns from investments in conventions and other business events. There is also demand for shorter, more specialized events and an emerging demand for secondary and tertiary destinations.

Global Trends in Conventions

Emerging Demand for Secondary and Tertiary destinations
- As per the Advito forecast, there is a growing demand in the conventions segment for secondary or tertiary destinations among meeting planners.
- Advito reports an increase in demand for meetings in BRIC in 2015, as organisations are trying to expand their geographic spread in these emerging markets.

ROI of Conventions are Becoming Important
- The IMEX Global Insights Survey\(^1\) reveals that for senior management, detailed and comprehensible ROI has emerged as the third-most dominant factor influencing decisions regarding business events.

Smaller, more-specialized and shorter events
- As per the Convention 2020 report, 79% respondents\(^2\) believe that business events will increase in number, get smaller in size and have a highly specialised content.

Increasing Focus on CSR
- According to Convention 2020 Survey, 70% participants believe that CSR will become a crucial factor if for their decision of attending a meeting/ convention or not.

Consequences for Mpumalanga
- There is a growing demand for secondary and tertiary destinations that should help Mpumalanga to position itself as a convention destination.
- Key trends in the industry, driven by efforts to reduce costs and to focus on objectives and ROI, should help Mpumalanga to position itself as a destination that can offer excellent value for money.
- There are key CSR factors that Mpumalanga will need to build into its selling proposition.

Note: 1Survey respondents included 40–50 senior meetings industry professionals from America, Australia, Argentina and Europe; 2Survey included 1,125 participants from 76 countries, majority being from meetings and events industry.
Global Trends in Exhibitions

Limited Recovery of the Exhibitions Industry

- According to the ‘7th Global Barometer Survey’ conducted by UFI in June 2013, the growth rate of the exhibitions industry has increased during 2013-2014 and the industry has recovered from the economic recession.
- According to the study ‘The 2013 Changing Environment of Exhibitions Study’, 60% of the participants said that the number of exhibitions will remain at the current levels, while only 25% of the participants said that the number will increase in the coming years.

Increased Specialization of Exhibitions

- In the Convention 2020 study, 79% participants said that they expect a greater choice of smaller and highly specialised exhibitions in the market by 2020.

Reduced Duration of Exhibitions

- The duration of exhibitions are getting shorter to suit the time requirements of the exhibition attendees.

Consequences for Mpumalanga

- Exhibition Management Companies look to create events in large, thriving business destinations. As a result, Mpumalanga cannot effectively position itself as competitive exhibition staging destination compared to other major urban centers such as Johannesburg, Cape Town or Nairobi.
- In addition, the province lacks the infrastructure necessary for staging these kinds of events.

Note: 1 The survey was conducted among 194 companies in 54 countries; 2 The study was obtained from an online survey of 298 marketing executives across industry sectors who were involved in marketing and promotions decisions, including deciding whether to exhibit at exhibitions; 3 The study included 1,125 respondents from 76 countries.

### Key Industries for Mpumalanga

Mpumalanga’s key industries are mining, agriculture and forestry, followed by manufacturing and tourism. There is a strong commitment to develop these industries, and related sectors. Business events will have a positive influence in promoting the province’s economic agenda.

<table>
<thead>
<tr>
<th>Mining</th>
<th>Agriculture</th>
<th>Forestry</th>
<th>Manufacturing</th>
<th>Tourism</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Mining is one of the important sectors in the province.</td>
<td>- The agricultural sector plays an essential role in the fight against poverty and securing food security.</td>
<td>- Mpumalanga is the country’s major forestry production area, and has the ideal climate and topography for forests.</td>
<td>- The manufacturing sector is one of the largest contributors to the economy. With more focus on beneficiation and agro-processing, investment in manufacturing could contribute to economic growth and job creation.</td>
<td>- With its rich offering of outdoor and adventure activities, Mpumalanga is a thriving tourist industry, that will certainly continue to grow.</td>
</tr>
<tr>
<td>- Mpumalanga is endowed with precious metals, precious stones, non-ferrous and base metals, energy minerals and various industrial minerals.</td>
<td>- The province produces summer cereals and legumes as well as fruit farming.</td>
<td>- The province has extensive commercial forests and sophisticated processing plants.</td>
<td>- The business events and events sectors, with government support, will also contribute to economic development in the province.</td>
<td></td>
</tr>
<tr>
<td>- The diversity of resources contributed to the establishment of heavy industrial activities.</td>
<td>- Mpumalanga is also well known for its intensive and extensive beef production and of other animal produce.</td>
<td>- The forestry sector presents opportunities that have the potential for economic growth and job creation.</td>
<td>-</td>
<td></td>
</tr>
<tr>
<td>- The energy industry is also experiencing increased development.</td>
<td>- There is increasing potential for agro-processing in the province, but this is constrained by access to water resources.</td>
<td>-</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Market Priorities (1/2)

Corporate meetings and conventions both provide a moderate to high potential for Mpumalanga, however these should be explored with a focus on the domestic and regional markets, while the international market is viewed more opportunistically.

### Corporate Meetings

- **External Meetings**, help manage relationships and tend to be held where companies have supply sources/demand centres, with end user reach a key for destination selling.
- **Internal Meetings**, help with corporate support activities and are usually held close to corporate installations (regional/global offices).

### Value Chain

- **Inbound Logistics**
- **Operations**
- **Outbound Logistics**
- **Marketing & Sales**
- **Branding**
- **Shipping**
- **Sales & Marketing**
- **Outlets**
- **Delivery**

### Supply Chain

- **End User**
- **Distribution**
- **Assembly**
- **Components**
- **Manufacturing**
- **Commodities**
- **Raw Materials**

**Recommended Priorities:**

- Focus on government meetings, as well as domestic and regional (southern African) corporate meetings.
- Engage with global mining and auto firms operating in the province, to capture their meeting requirements.

### Conventions

- **Most associations are based in Europe, with nearly half the international conventions attracting less than 250 delegates.**

  - **Where are the Associations Based?**
    - Europe: 59.4%
    - North America: 22.4%
    - Asia/Middle East: 9.3%
    - Latin America: 5.1%
    - Other: 3.8%

- **What Size are the Conventions?**
  - Under 250: 46.0%
  - 250-499: 26.0%
  - 500-999: 15.0%
  - 1,000-1,999: 8.0%
  - Over 2,000: 5.0%

- **Focus on conventions with 200 – 300 delegates, although there is potential to cater up to 500 delegates. Geographic focus should be on South African, SADC and African associations.**
- **Opportunistically target international conventions attracting 300-500 delegates that align with the province’s priority sectors.**

Source: ICCA 2002-2011 Statistics; GainingEdge research and analysis.
Mpumalanga has a strong potential to develop its unique offering into an incentive product. However, its potential as an exhibition destination is very limited due to lack of infrastructure and issues related to access to markets.

**Incentives**

- **The incentive market is positively impacted by:**
  - The nascent economic recovery, which is enhancing demand for incentives
  - An overall improvement in the corporate travel budgets
  - Emergence of new markets, such as Brazil, India and China
  - Presence of strong potential offerings in the incentive space, in Mpumalanga
  - There is a value for money offering that the province can deliver in the space
- However, the market also faces the challenges of
  - Shortening itineraries that have a significant negative impact on long-haul destinations
  - Lack of connectivity across the province

**Recommended Priorities:**

- The province has a strong potential for incentive offering, given its extensive offering of outdoor, wildlife, adventure and sports positioning.
- Mpumalanga offers the ultimate South African experience of the Big-5, in addition to its rich cultural heritage

**Exhibitions**

- Exhibitions are driven by macro-economic factors for a country or region. Given the limited potential of reaching target audience for B2B/ B2C segments, the province does not offer a strong offering to exhibition title holders
- Thus, even as the exhibition market is driven by:
  - A gradual economic recovery underway
  - Emergence of smaller highly specialized titles
  - Ability to position South Africa as Africa’s staging place
  - this is not something that Mpumalanga can effectively leverage to emerge as a strong exhibitions destination

**Recommended Priorities:**

- The province should not focus on the Exhibitions market, given its limited potential to capitalize on it

Key Competitors

Key competitors for Mpumalanga are other destinations in Africa, particularly Kenya and Namibia. Secondary cities in South Africa, such as Rustenberg (Sun City) offer stiff competition. Other provinces that offer similar outdoor or “extreme” experiences, such as Limpopo and KZN compete with Mpumalanga in the incentive space.

Key Competitors for Meetings:
- Key cities in South Africa and Southern Africa:
  - Johannesburg / Tshwane
  - Bloemfontein
  - Rustenberg (Sun City)
  - Harare / Victoria Falls
  - Gaborone
  - Maputo

Key Competitors for Conventions:
- Other secondary destinations in Southern Africa:
  - Harare
  - Winhoek /
  - Gaborone
  - Maputo
- Destinations in South Africa:
  - Tshwane
  - Bloemfontein
  - Kimberley
  - Sun City

Key Competitors for Incentives:
- Other countries in Africa:
  - Kenya
  - Namibia
  - Mozambique
  - Zimbabwe
  - Tanzania
- Other provinces in South Africa

Coordination and Partnership

Mpumalanga Province Convention Bureau will set-up an advisory committee made up of representatives of the provincial meetings industry. Monthly meetings will enable effective communication and coordination of activities. To encourage active participation, Mpumalanga Province CB will also develop a non-paying partnership model for members of the industry.

### Recommended Approach

<table>
<thead>
<tr>
<th>Advisory Committee</th>
<th>Partners</th>

</table>

### Advisory Committee

Members would sign an agreement including protocols relating to:
- Activity Levels
- Lead Sharing
- Information Sharing
- Roles and Responsibilities

### Partners

Partners would sign a partnership agreement to acknowledge their responsibilities, including:
- Activity Levels
- In-kind commitments
- Responding to surveys
- Programme Support

Source: GrainingEdge research and analysis
Mpumalanga CB Partners Programme

Mpumalanga Province Convention Bureau will create a partners programme in order to facilitate on-going working relationships with stakeholders. Partners will not be required to pay for membership, however they will need to meet certain criteria and will sign MOUs that outline mutual commitments and responsibilities.

### Recommended Approach

#### Advisory Committee
- Advisory Committee will consist of appointed stakeholder representatives from Mpumalanga
- Geographic spread among representatives will be assured

#### Criteria for Participation in Partners’ Programme

To be eligible to join the partnership program, the following criteria must be met by the entity:
- Show that it has a significant experience in the business events sector
- Must maintain a minimum level of participation in Mpumalanga Province CB cooperative programs
- Must participate in MPCB service standards programme, including in education and training programmes
- Sign MOUs outlining mutual commitments with Mpumalanga Province CB, including responding to surveys and sending required activity reports

#### Activities
The advisory committee will take on coordination and communication responsibilities between Mpumalanga CB and the stakeholder community

### Benefits of Entering Partners Programme

#### Marketing Opportunities
- Trade shows
- Sales missions
- Cooperative Advertising
- Co-branding

#### Product Listings
- Website
- Meeting Planners Guide
- Incentive Planning Guide
- Bid documents

#### Industry Programmes
- Networking functions
- Education programmes
- Product development workshops

#### Market Intelligence
- Business leads
- Statistical reports
- Market research and analysis

Source: GrainingEdge research and analysis
Through its sales team and marketing activities, Mpumalanga Province Convention Bureau will generate leads for the province. Leads developed by the sales team will be distributed according to the protocol shown below. Business leads received from SANCB will also be distributed according to protocols agreed on, at a national level.

**Recommended Approach**

- **Leads generated by Mpumalanga Province CB**
  - Mpumalanga will generate leads and distribute them to partners/suppliers based on client need
  - SANCB will distribute a lead to Mpumalanga if the capacity requirements are met in the destination
  - If a bid process is required, Mpumalanga CB will take the lead, with support from local suppliers. For some bids, national support could be requested from SANCB
  - Local suppliers will receive leads according to client needs. Distribution protocols will need to be developed to assure equitable treatment among suppliers
  - Leads originated by Mpumalanga will only be sent upstream to the national CRM if proprietary status is being sought or if a secured booking is being reported.

- **Leads generated by SANCB**
  - Mpumalanga will take the lead, with support from local suppliers. For some bids, national support could be requested from SANCB
  - Leads originated by Mpumalanga will only be sent upstream to the national CRM if proprietary status is being sought or if a secured booking is being reported.

**Lead Distribution Protocols**

Source: GrainingEdge research and analysis
Account Management

In coordination with SANCB, Mpumalanga Province Convention Bureau will have a key role in developing and distributing leads to different suppliers across the province. CRM protocols will be developed to allow the system to be managed effectively.

**Recommended Approach**

**Leads generated by SANCB sales activities**
- All leads generated by SANCB will go into the database.
- If they have the capacity to handle an event, leads will be accessible by Mpumalanga Province CB.
- Mpumalanga Province CB will be able to access detailed information on the lead.
- If Mpumalanga is already working actively on the account, and can document it, then it would request that lead be treated as a proprietary account.
- Some accounts will become multi-proprietary.

**Leads Generated by Mpumalanga CB sales activities**
- If Mpumalanga is at the origin of a lead, it becomes a Mpumalanga Province proprietary account.
- Mpumalanga will handle distribution of leads to approved suppliers in the province.
- In addition to distributing leads, Mpumalanga CB will manage the bid process for larger events.

**SANCB National CRM/Sales Database**

**Mpumalanga CB CRM/Sales Database**

**Database Interface**

Database management protocols will be defined to allow for interfacing and communication between systems.

Mpumalanga, through its Convention Bureau, will significantly increase the number of events held in the province by securing conventions, meetings, and incentive events, in order to

- Create positive economic impact for the province
- Support economic development priorities, and
- Strengthen the province’s positioning around its unique product offering which includes wilderness and outdoor adventure, and culturally-rich experiences
Mpumalanga will be recognized as the most iconic and exciting business events province in South Africa
Goals for 2020

Goal 1
By 2020, Mpumalanga will have increased the number of attendees at business events held in the province by a factor of three

Goal 2
By 2020, Mpumalanga will host more than 8,000 delegates annually at national, regional and international conventions

Goal 3
Mpumalanga Province Convention Bureau’s Business Partners will consider it to be a major contributor to their success
Key Performance Indicators (1/3)

Goal 1: By 2020, Mpumalanga will increase the number of attendees at business events* held in the province by a factor of three

Number of Attendees at Business Events

Pace Goals for Increased Number of Conventions, Meetings and Incentives for Mpumalanga Province

*does not include exhibitions. Estimations based on projections from SANCB study by Grail and GainingEdge (2012), and assumes a 2.7% market share of national business for Mpumalanga Province.
Goal 2: By 2020, Mpumalanga will host more than 8,000 delegates at national and international conventions

Pace Goals for Hosting Convention Delegates in Mpumalanga Province

Estimations based on projections from SANCB study by Grail and GainingEdge (2012), and assumes a 2.7% market share of national business for Mpumalanga Province
Goal 3: Mpumalanga Province Convention Bureau’s business partners will consider the bureau as a major contributor to their success in the business events sector

Note: These figures assume that MPCB will succeed in implementing its strategy successfully, and will achieve productivity goals set out on a national level. The economic benefits detailed on this slide are based on the assumption that the Mpumalanga Province Convention Bureau can implement the strategy outlined in this document completely and comprehensively. The associated requirements for these are detailed in the subsequent slides. ROI figures take into account the fact that MPCB will take advantage of increased investment on an national level, and magnify them by its own efforts to gain its fair share of the international and domestic market.

Table of Contents

- Activation Strategy

- Business Plan
  - Business Events Development Activities
  - Events Development
  - Sales Tools
  - Resources
  - Critical Path
**Lead Development**

One of Mpumalanga’s key challenges is to develop leads for business events through an aggressive and coordinated approach. Leads that are identified and qualified should feed into Mpumalanga Province CB’s database, which will also dovetail with Team South Africa’s Sales database.

### Recommended Approach

#### Mpumalanga CB Roles and Responsibilities

- **Market Research**: Mpumalanga CB research staff will identify potential events and contacts for follow-up by the sales team.
- **National Association Contacts**: CB will source potential events through networking with key contacts, who will also provide access to international decision makers.
- **Networking with Mpumalanga Province Government Authorities**: Close working relationships will focus on priority potential events in priority economic sectors.
- **Trade Shows and Sales Missions**: Prospects developed through these activities will be qualified by the CB and distributed based on agreed protocols.
- **Ambassador Programme**: The bureau manage an ambassador programme, whose members will source leads from within their professional area of expertise.
- **Online RFP**: This should be an integral part of the new website and leads coming through this channel will be communicated to all members.

#### Partner Roles and Responsibilities

- **Sales and Marketing**: The sales and marketing activities of members will be a key source of leads that will be captured in the Mpumalanga CB’s database, where certain leads will become proprietary and others will be public.
- **Information Sharing**: Partners agree to share data with Mpumalanga CB, in order to track evolution of business events.

All leads will feed into the Mpumalanga CB database, which will dovetail with Team South Africa’s database.
By setting up an Ambassador Program, Mpumalanga Province Convention Bureau will be able to identify and secure an important share of regularly occurring association meetings, both national and international, which call for competitive bids from a local chapter of the association. Working with the local university, the MPCB should be able to develop a strong ambassador programme.

### Recommended Approach

#### Ambassador Credentials
- Sits on executive committees of national / international associations
- Well-known in field
- Future leader « in-coming chair »
- Involved in winning or staging events
- Leaders of key economic sectors

#### Commitment by Ambassadors
- Peer to peer communication at top level academic and professional circles
- Encourage colleagues to bid and host events
- Presentations to peers – potential hosts
- Identify opportunities for Bureau to meet potential hosts

#### Programme Management
- Ownership: MPCB, industry committee, group of associations
- Clear objectives/expected outcomes
- Term of ambassadors
- Programme management thru CRM system
- Resources to maintain and motivate ambassadors

#### Programme Activities
- Bid support : bid documents, strategies, financial analysis, Peer to peer presentations
- Newsletters
- Training : presentations and media
- Awards
- Advisory groups
- Civic receptions

### Goals for the Ambassador Programme
- Establish partnerships and relationships with large associations
- Reinforce bid effectiveness for targeted events
- Establish an engagement within the Mpumalanga Provincial government around the business events sector
- Support and promote economic priority economic development sectors for Mpumalanga

Source: GrainingEdge research and analysis
Bidding

It is the role of the provincial CB to drive the bidding process for the destination. This is one of the key roles of the Mpumalanga Province CB, which needs to prepare the adequate tools and resources in order to be successful in securing convention bids. Mpumalanga Province Convention Bureau will coordinate with the SANCB, to successfully manage the bidding process.

Recommended Approach

Driving the bidding process

- **Bid Materials**: Mpumalanga Province CB will develop standard packages of materials that will include collateral, photos, videos, and site inspection templates.
- **Letters of Support from Government**: Mpumalanga Province CB will leverage its network to gain rapid access to these important letters from a city, and provincial level.
- **Lobbying and Promotional Support**: To help convince site-selection decision-makers to choose Mpumalanga as their preferred venue.
- **Presentations to show Government Support**: Mpumalanga can arrange for government officials to make presentations, or request for presentations by SANCB.
- **Local Contacts**: Mpumalanga Province CB will use its network to gain support from local associations.
- **Site inspection support**: Successful site inspections require close coordination and support from airlines, hotels and government protocol offices. Mpumalanga CB will manage this process.

Managing event support

- **Subvention**: Mpumalanga will coordinate requests for funding, mostly from the SANCB subvention fund. In some cases, larger requests from government funding sources will be managed by SANCB.
- **Delegate Boosting**: The Mpumalanga Province CB will work with SANCB to maximize delegate numbers.
- **Airport meet and greets / hospitality suites**: CB will coordinate with MTPA for key events.
- **Coordination of tour desks and visitor information centres**: This will be geared towards fostering a longer length of stay for delegates and will be staffed by volunteers, or MTPA staff.
- **Welcome ceremonies**: These are essential services that get the event off to a good start. Often they need to take place in government sponsored locations. The Mpumalanga Province CB will coordinate these efforts.

Source: GrainingEdge research and analysis
Subvention

Mpumalanga needs to develop a collaborative approach to subventions, coordinating its efforts with SANCB.

- **National Subvention Programme** – South Africa National Convention Bureau will dispose of a subvention fund aimed at securing international events for South Africa.
- **Mpumalanga Province Convention Bureau** will have a role of actively requesting the use of subvention funds from SANCB. In addition, MPCB will work to develop “in-kind” subventions.

### Key Criteria
- Priority will be given to international events, particularly in sectors that have been identified as priorities for economic development.
- Demonstration of support from local institutions within these sectors.
- Qualification: International events, rotational, with > 20% international delegates.
- More than 500 delegate days.

### Requirements
- Commitment to promote Mpumalanga or its industrial, academic, research capabilities as part of event marketing program.
- Provision of business and event marketing plan, or equivalent.
- Signing of Memorandum of Understanding outlining:
  - Mutual obligations
  - Support schedule
  - Agreed performance outcomes
  - Support documentation required for payments.

### Subvention Distribution
- Preference to be given to supporting activities that increase ROI of events, promote efforts to maximize yields and event success.
- Preference and payment given to local suppliers (wherever applicable).
- Priority given to support that is non-financial, although some commitment may be financial in nature.

### Commitments
- Access to event statistics.
- Event details for inclusion in ICCA and UIA rankings.
- Access to data to conduct on-site and post-event surveys:
  - Testimonials, images, video footage and case study information to be made available to LP CB staff.
- Agreement to work closely with MP CB staff in order to maximize promotional impact of event for Mpumalanga.

Source: GrainingEdge research and analysis
Educational Tours / Site Inspections

Mpumalanga Province CB will invite decision makers to the destination to showcase the province’s capabilities and potential for future events. Organizing these high-impact visits is crucial, and a necessary step in booking and finalizing deals. MPCB will need to coordinate this activity with SANCB in order to obtain full support.

Mpumalanga Province CB Coordination

These visits are high profile, and require a rigorous approach to planning and execution according to the highest standards. Mpumalanga Province CB needs to take a “front-line” approach to visits that focus on the province.

Education and Training

In addition to media and client development, these visits need to include a strong training and educational component. Mpumalanga Province CB needs to coordinate with SANCB in order to leverage these events.

Incorporating a strong educational component into familiarization tours attracts buyers and decision makers.

Site Inspections

- Site Inspections target individuals or teams specifically representing an event, and who are well advanced in their decision making process.
- In cases where MPCB has partnered with a specific destination in preparing a bid, the inspection trip will be co-organised and co-financed by the two parties.
- In cases where the destination has prepared the bid alone, it will be solely responsible for the site inspection, with providing minimal logistical backup (collateral, support for meeting officials, etc.).

Educational Tours

- Target audience is meeting planners and media
- Focus is to secure future business
- These educational tours to include industry educational programs. Coordination with Mpumalanga Province CB and SANCB will be essential. Meeting planners and journalists will participate actively in training sessions, for example: Incentive Product Development/Services for Associations
- 2 events per year

Recommended Approach

Source: GainingEdge research and analysis
Event Marketing

Mpumalanga Province CB and its partners need to develop an aggressive approach to event marketing including activities such as pre-events attendance promotion, research for sponsors and assistance in exhibition sales. These efforts are key in maximizing yield from events held in the province and also provide additional sales arguments during the bid process. Coordination with SANCB is key in successful event marketing.

Mpumalanga needs to develop its product offering if it wants to increase market share in the business events sector. It has a number attractive destinations that are not positioned effectively. There exist an array of incentive products that need to be better packaged. In addition, Mpumalanga Province CB needs to coordinate with SANCB to develop professional training.

**Recommended Approach**

### Product Development

**Destination Positioning**
- Destinations are not positioned effectively on the convention & meetings markets
- MPCB will need to conduct a full product inventory of facility packages by destination, including capacity, amenities, attributes and identify priorities by market segment

**Regional Positioning**
- Regions outside of “urban zones” propose quality venues and attractions, but need to be packaged in order to be segmented and marketed effectively

**Incentive Product**
- Incentive offering is wide-ranging and deep in scope. It needs to be structured effectively and packaged for key markets
- Local suppliers need to improve their market knowledge and the quality of their service

**CSR Product**
- CSR products are in demand in all segments of business events
- Different CSR offerings need to be developed in all regions of the province

**Infrastructure**
- Mpumalanga Province CB will need to do a needs assessment (venue needs, transportation, signage, attraction, etc.) for different regions of the province, and make recommendations to policy makers about priorities

### Training

**In coordination with SANCB, Mpumalanga Province CB should organize regular training seminars for business events practitioners to enhance knowledge, help them understand customer trends, and improve their sales and services skills.**

**Professional Certification**
- Mpumalanga Province CB should implement a wide-ranging program that encourages suppliers across the province to obtain professional certification, such as CMP, SITE, CMM

Source: GrainingEdge research and analysis
Mpumalanga Province Convention Bureau should work closely with SANCB to assure that it can take advantage of opportunities to be present at European trade shows. MPCB should attend some of the big European shows each year, and use these opportunities to get access to international buyers, and to showcase the province’s capabilities. While it is not recommended that Mpumalanga participate in sales missions at this time, MPCB should make sure that SANCB sales reps are fully briefed on prospects across Europe.

**Recommended Approach for Trade Shows**

**IMEX**
- Annual Event in May held in Frankfurt, Germany
- International Buyers from Association, Corporate & Incentives

**EIBTM**
- Annual event in November in Barcelona, Spain
- International Buyers, Associations

**Recommendations for Sales Missions**

**Associations**
- While it will not have the resources to participate, Mpumalanga Province CB should be made aware of sales missions in order to target individuals or teams specifically representing events that have been identified as potentials
- When possible, Mpumalanga Province CB should ensure that overseas sales reps are aware of key prospects and hot leads, so that they can effectively liaise with the contacts

**Incentives**
- Target audience is corporate meeting planners and corporate incentive houses in key markets in Europe
- Mpumalanga will fully brief sales reps who will propose packaged incentive products from the province
- Presentations with experiential support (videos, collateral, gifts)

---

Source: GainingEdge research and analysis
Media and Public Relations

Mpumalanga Province Convention Bureau has a key role to play in increasing awareness of the province as a business events destination through the use of media, social networking and promotional event planning.

Recommended Approach

Media Relations
- Mpumalanga Province CB, working with SANCB, will develop strong relationships with media contacts, both locally and internationally.
- A media database will be included in the CRM system that will include a tracking function.
- Mpumalanga Province CB will create a "social media newsroom" for journalists who are looking for online interaction and content.
- News releases will be systematic and focus on the leading social media sites and blogs.
- Mpumalanga Province CB will participate in media familiarization tours in order to showcase the destination and build relationships.

Social Media
- Social media strategies will be developed, coordinated and monitored by Mpumalanga Province CB.
- Communication will target specific segments of audiences in order to promote the Mpumalanga brand, increase interaction and develop relationships.
- Identify creative opportunities to extend website content to social media.
- Facilitate "conversations" with media and opinion leaders – promote development of user generated content.

Promotional Activities
- Mpumalanga Province CB will look for cooperative advertising opportunities with SANCB or other business events partners.
- Mpumalanga Province CB will leverage media coverage of large business events in order to build reputation among opinion leaders.
- Monthly E-newsletter to inform key target audiences of developments.
- Mpumalanga will work to sponsor special events during trade shows or sales missions.

Industry relations
- Mpumalanga Province CB will work with SANCB to organize educational/training workshops with members regarding effective use of media relations and social media.
- Key messages and media strategies will be developed by Mpumalanga Province CB and communicated to members.
- Members will be the target of a specific communication strategy using events and social media techniques.
- Mpumalanga Province CB will assume leadership role in defining communication strategies, particularly in new media.

Source: Inputs from stakeholder discussions; GainingEdge research and analysis
Website and CMS

Mpumalanga Province Convention Bureau needs to develop a business events website that is both customer and stakeholder-facing. Based on a flexible content management system, it should integrate access from anywhere. Consistency with Mpumalanga Tourism Authority positioning and branding is essential.

Recommended Approach

Key characteristics of Mpumalanga Province Convention Bureau Website and CMS

**Engaging**
Mpumalanga Province Convention Bureau website needs to be engaging, attractive and user-friendly for all audiences including meeting planners, events organizers, delegates, partners and stakeholders, media, etc.

**Accessible**
- It needs to be accessible from anywhere in the world and propose a variety of applications for use with mobile devices
- Allow for varying permission among partners and stakeholders (i.e. content updates, read-only, etc.)

**Online RFP**
Include on-line RFP functionality that should be fully integrated into CRM system in order to eliminate duplicate data entry.

**Content Marketing**
- Articles, blogs, listings, virtual tours and other forms of content promoting destinations, venues, activities, services, etc.
- Experiential content with photos, videos

**Decentralized**
- Content management will be handled by partners directly according to previously defined content management protocols
- View and click-through to partner sites tracked and reported regularly

**SEO & online Marketing**
System and site to be structured to maximize Search Engine Optimisation and enhance Pay per Click campaigns in order to ensure content is optimally marketed

**Integrated**
Allow for full integration into Mpumalanga Province Convention Bureau CRM system and database

Source: GainingEdge research and analysis
CRM System

A Customer Relationship Management system that allows for a comprehensive approach to sales enablement, online marketing and data base management will have to be an integral part of Mpumalanga Province CB’s operating tools and procedures. A national technology platform will be developed by SANCB, and Mpumalanga Province CB needs to use the same platform, or coordinate its systems in a manner that will allow for effective integration and interface.

Recommended Approach

- Mpumalanga Province CB needs to develop a full understanding of the SANCB CRM platform and define its own system characteristics and specifications in order to effectively coordinate and integrate with a national platform.

Key characteristics of Mpumalanga CRM system

**Integration with Website**
- Integrated with Mpumalanga Tourism Agency website
- Data capture and feeds to and from website

**Accessibility**
- Web-based to allow for easy updates and access from anywhere in the world
- Accessible through mobile devices

**Management**
- Media management functionality – media contacts, distribute leads, track mentions
- Dashboards for instant access to strategic information and metrics

**Communication and Reporting**
- Create reports that are available using filters and access codes
- Event management module – enable organisation of site inspections, stakeholder events, tradeshows, familiarisation tours

**Partners**
- Modules to manage relations with partners – bureaux, DMCs, PCOs, venues, hotels and other vendors
- Online Stakeholder/member/partner extranet, to allow for excellent communication with stakeholders on

*Source: GainingEdge research and analysis*
Table of Contents

- Activation Strategy

- Business Plan
  - Business Events Development Activities
  - Sales Tools
  - Resources
  - Critical Path
Mpumalanga Province Convention Bureau should implement the organizational chart shown below, which will allow it to cover the most essential job functions. Strong coordination and cooperation between sales and research functions is a critical success factor for the bureau. In a phase-in model, the association sales (senior position) and research roles should be the priority.

**Recommended Approach**

### Executive Manager
Mpumalanga Province Convention Bureau

- **Administrative Coordinator**
- **Senior Sales Manager - Associations**
- **Sales Manager - Corporate**
- **Research Coordinator**
- **Partner Program / PR Coordinator**

**Description of Key Functions**

#### Sales Manager
- Lead Development
- Trade Shows
- Sales Mission
- Client Relationships
- Bid Presentations
- Client Visits
- Sr. Sales Manager to have some management responsibilities

#### Research
- Business Development
- Account Research
- Bid Research
- CRM
- Website/CMS
- Business Events
- Activity Analysis
- ICCA reporting

#### Partner Program / PR Coordinator
- Coordination Partners
- Lead Distribution
- Communication
- Site visits
- Advisory Committee
- PR / Media
- Ambassadors Program
In order to achieve the goals set within this strategy, Mpumalanga Province Convention Bureau would need to receive adequate funding. Expenses are particularly important in the first year of operations in order to cover start-up cost related to collateral production, contract services, website and CRM development, etc.

### Recommended 5-Year Operational Budget for Mpumalanga Province CB
